

COMPANY
PROFILE
2021-2022

ABOUT US

We are in the field of

- Die (Mould) Designing
- Die (Mould) Making
- Die Casting

Since Last 5 Decades

We, Gravity die casting industries are fast growing manufacturers of

- Intricate Castings
- Heavy Castings
- Semi Gravity Castings
- Pressure Tight Castings
- Flameproof Quality Castings

We provide wide range products and vast experience to meet the needs of customers.

We have pioneered in Aluminium Diecasted & Extruded **Heatsinks.**

- 5 Decades of Experience & Competency in this Industry
- 3rd Generation in Business
- Exporting all over the world
- More than 5000 products manufacturing

HISTORY

We established company in 1974 with a small team, in 2005, We started In-house Die making facility.

Extrusion heatsinks & Pressure diecasting started from 2011 & 2016 respectively.

Now, in 2020, We entered into Global market.

Constant upgradation in facility and knowledge along with technological partnerships has made Gravity diecasting industries an Expert in industrial engineering.

STRUCTURE OF COMPANY

Gravity diecasting industries is a Partnership company.

This is the 3rd Generation running the company.

The company has professional management structure.

The activities divided in departments like Sales, Production, Marketing, Designing, Admin etc. headed by expert in their field.

QUALITY AND TESTING

- We have attained the position & trust of customers by consistent delivery of satisfaction
- We use of High-quality material that exceeds the requirements of national & international standards
- A range of Quality checks to ensure highest safety standards in practical applications
- Reliability through multiple checks before, during and after manufacturing

EXPERTISE

- We provide Die designing, die making and die casting under one roof
- We provide Ready to assemble product which goes directly to the shop floor for assembly
- We are specialized in thin wall castings
- We give complete technical assistance to develop the product
- We provide customized products to meet customer's needs

OUR MISSION

- Providing Benefits to all our business associates, attaining best management practices and becoming a world-class company in the segments we are present in, remains our foremost mission & all our actions are directed towards achieving it. We, at Gravity Diecasting Industries, are committed towards:
- Working with vigor, dedication and innovation, with total customer satisfaction as the ultimate goal.
- Empowering our customers by providing technologically advanced products at highly competitive rates – The Best Value for their Money.
- Attaining organic growth by combining visionary leadership & teamwork thus, improving our People, Processes, Products, Services and Business.
- Promoting a work culture that fasters individual growth, team spirit and creativity to overcome challenges and attain goals by Training, Mentoring and Empowering.
- Encouraging overall development of our employees by integrating their safety, health and happiness standards in our systems.
- Functioning with integrity, honesty and sincerity by following internationally acceptable highest ethical and moral business standards.
- Achieving growth along with our customers, staff, suppliers & all other business associates by truly confirming to beneficial for everyone.

OUR VISION

- To be a Perfect Solution Provider for our customer by becoming their long term partners in supply chain rather than becoming their supplier for short term.
- To provide Resources to our customer, by which they can plan their Production in better way..
- To provide the Concepts by giving innovative ideas & be a global player and have a satisfied and strong customer base worldwide.
- To obtain maximum benefit from a borderless world market & be able to source products and services from any part of the world & supply it to our customers worldwide.
- To increase our company's global standing by infusing creativity with technology & developing new path breaking products of global standards and thus making a road map for the Group to break into new markets & opportunities.
- To become India's leading world recognized Company by providing "Complete Solutions" to our customer by supporting them in all the areas of Production, Planning, Management, Development, Supply Chain & Purchases etc...

PRODUCTION

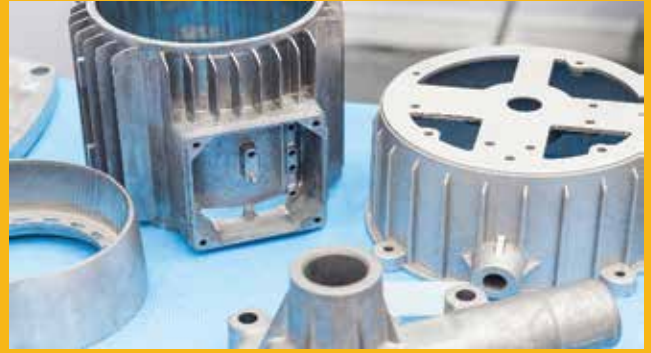

- Comprehensively Trained Staff & State of the art production facility guarantees highest quality.
- We Provide Efficient Manufacturing Through Process Oriented & Certified Workflows.

PRODUCT RANGE

Aluminium Castings

Aluminium castings have many benefits when compared to the likes of steel or grey iron castings. It produces strong, corrosion-resistant castings with high electrical & thermal conductivity. Aluminium castings are comparatively light weight, which results in lower storage and transportation costs. They are easy to machine and easy to recycle.

Heatsinks

We manufacture heatsinks of following categories

- LED Heatsinks
- PCB Heatsinks
- Inverter/Solar Inverter heatsinks
- Diode/Thyristor/IGBT/Module
- High Current device heatsinks
- Mosfet heatsinks

We manufacture the heatsinks by following process

- Extruded Heatsinks
- Diecasted Heatsinks
- Bonded Heatsinks
- Water-cooled heatsinks
- Pin type heatsinks

Further we provide all machining support to the manufactured heatsinks at our facility such as

- Cutting
- Deburring
- Drilling/tapping/chamfering
- Surface Machining by diamond tool
- Anodizing

PRODUCT RANGE

Flame Proof Castings

Flame Proof Castings Used in Hazardous Areas are Designed by us

- Push Button Station Housing
- Junction Boxes
- Thermocouple Heades
- Flameproof switch socket castings
- Well glass housing
- Reaction vessel lamp,
- Cleanroom fittings,
- flood lights,
- Hooters,
- Buzzers,
- Flashers, Etc.

Fire Fighting Accessories

Offering you a complete choice of products which includes

- Fire hydrant casting
- Fire hose casting
- Fire coupling casting

Aluminium Gas Welding Rods

Increase the strength of your welds with a selection of gas welding rods. Ideal for use as filler when stick welding & where corrosion resistance is important.

High Tension Electrical Equipments

Our factory has latest testing equipments of machine to manufacture equipments which are Light Fittings Equipments to best international standards.

Breather castings

The Breather Frame Castings, we offer with excellent features such as durability, precise dimension and sturdy construction.

These are manufactured using qualitative raw material sourced from reliable vendors.
